

# MAPLE RIDGE

2475 square feet

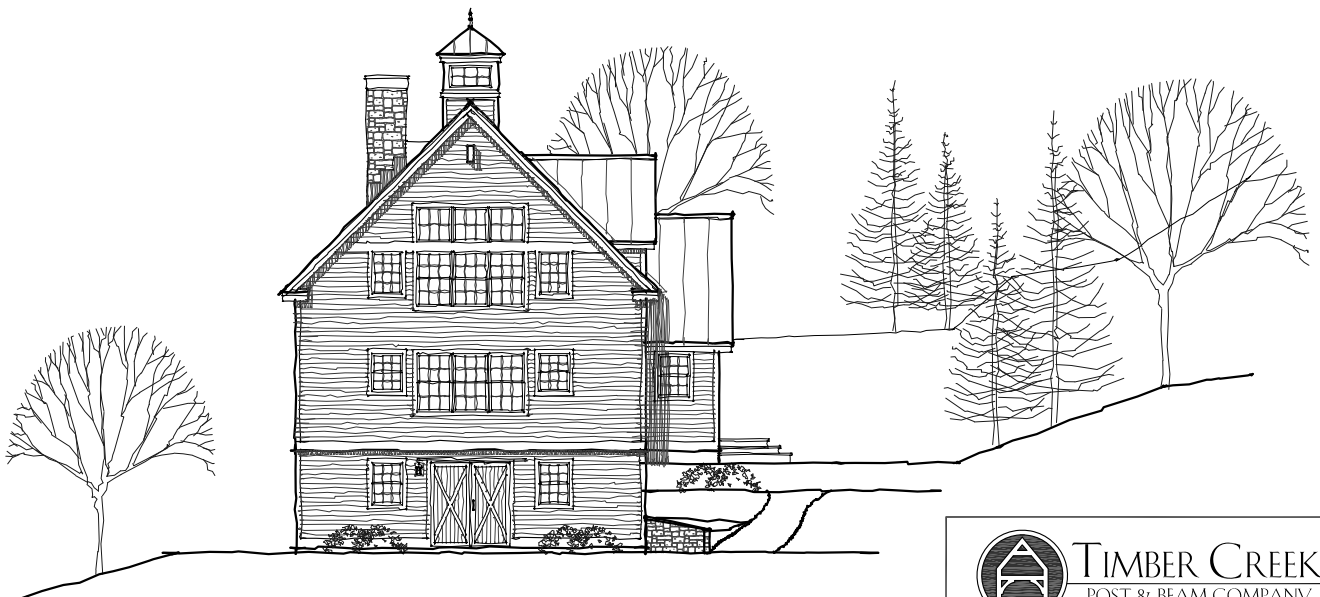

Deeply rooted in New England barn-style architecture, this home holds many surprises. Step into a vaulted entry, through the foyer and enter the great room, which features a large fireplace and eye-catching cupola. Large, full-length windows take advantage of the views and light in the kitchen, dining room and master bedroom. Thoughtful planning allows for two to four bedrooms and two full baths.

FIRST FLOOR PLAN  
1st FLOOR PLAN = 1450 s.f.

SECOND FLOOR PLAN  
2nd FLOOR PLAN = 1000 s.f.
